

Vimia's consultancy services

Vimia offers long-standing experience of the Internet and IT and – in addition to well-founded technical know-how – understanding and experience of business concerns.

Offering

Vimia can help you with the development of Internet strategies and the implementation of concrete products and services in the Internet, or can take the lead on your behalf.

Vimia combines uniquely business understanding with technical ability and long-standing experience of state-of-the-art technology.

You can find out more about Vimia's offering at:
